## PORT TAMPA BAY

**PORT TAMPA BAY** is the largest seaport in Florida in terms of both tonnage and geographic area, handling over 37 million tons of cargo per year and encompassing over 5,000 acres. Port Tampa Bay is the nation's closest deep-water gateway to the Panama Canal and an unparalleled point of connection to Latin America. It is also one of the most diverse seaports in the country with multiple lines of business providing a solid financial footing and supporting an aggressive capital investment program for new development.

The gateway for Central Florida's energy products, construction/building materials and consumer goods, Port Tampa Bay is also one of the world's premier fertilizer export ports, one of the largest shipbuilding and repair centers in the Southeast U.S. and a major homeport for cruise vessels.

The new Tampa Gateway Rail Terminal extends Port Tampa Bay's reach to the Midwest, Northeast, and other U.S. destinations through the CSX Rail Network, and a five-year plan is now in place to invest \$380 million in

docks, terminals and navigational improvements. This effort includes new Post-Panamax gentry cranes, which have already been installed, and a phase build-out that will quadruple the size of the container terminal to more than 160 acres.

Large tracts of property with exceptional deep water, highway and rail access are also zoned and available for immediate manufacturing and industrial development.

Tampa Bay also features some of the most advanced data centers and communications networks in the country. With a high concentration of major financial services operations, our community is a frequent test market for the deployment of advanced technology, making local businesses among the first in the nation to access cutting edge infrastructure enhancements.

## SUCCESS STORY

## DTCC

Depository Trust & Clearing Corporation originally selected Tampa as the site of a redundant operations center with 300 jobs a few years after September 11<sup>th</sup> impacted the New York financial markets. Now, a decade later, the site stands as a fully-integrated business operations unit with nearly 1,000 staff and counting, who are conducting finance, legal, human resources, marketing, audit, and IT operations. Executives cited a knowledgeable workforce, educational resources, affordable cost of living, and support from local government as key factors in their decision to grow operations here.

## WORLD'S FIRST WELL CERTIFIED™ CITY DISTRICT FOR WELLNESS

Tampa and Hillsborough County are in the midst of a historic transformation that will shape the economic future of the region. One of the most high profile projects underway in Tampa is Strategic Property Partners' (SPP) redevelopment of 40 acres along the downtown waterfront. SPP, a real estate development joint venture between Bill Gates' Cascade Investment, LLC, and Jeff Vinik, owner of the Tampa Bay Lightning, is creating a mixed-use development in the heart of the urban core that will be the world's first WELL Certified™ city district for wellness. The district will offer a walkable, sustainable, Wi-Fi-connected, and healthy environment for tenants, residents, students, and guests. SPP currently owns the 719-room Marriott Waterside Hotel and Marina as well as Channelside Bay Plaza, both of which are located on the water.

While the entire SPP project will be developed over time, a number of projects are planned to start

construction: a new 400–500 room hotel, a 650,000 square foot signature office tower, 200,000 square feet of retail, restaurants and entertainment venues, the University of South Florida Morsani College Of Medicine and Heart Institute, as well as an adjoining office building to house health industry-related businesses.

The district possesses a number of exciting amenities in close proximity that attract over three million visitors annually: Amalie Arena (home to the Tampa Bay Lightning National Hockey League team and many concerts and other events), Tampa Bay History Center, Tampa Convention Center, Florida Aquarium, and an active passenger cruise terminal that serves close to 900,000 travelers each year. When all three phases of the project are completed, the development will be approximately 6,000,000 square feet of commercial, residential, and retail space with a total investment exceeding \$2 billion.
